

Name_____ Per._____ Date_____

AP Art Reflection

This is my reflection for_____ (name of the assignment.)

Idea creation - Explain the context (background information) that inspired the idea for this work.

For example, “my series of waterfalls came to me while I was on several hikes over the summer. The variety of different ways the water was flowing and falling inspired me to investigate my series of painted waterfalls.”

Process 1 - Explain the resources that you used to realize your idea.

For example, “I used reference photos and field sketches to develop my sketches of three different waterfalls.”

AP Art Reflection

Process 2 - Explain how you altered or developed these resources into “Your own” work.

For examples, “The second waterfall in my series was inspired by a Japanese ink painting. From this reference I used the idea of fading/blurring edges that creates a misty type of environment.

Product - Looking at the final series all together. Which of the pieces captures the idea of your series the best? Why?
