

Kaleidoscope Rubric

1 pt.	3 pts.	5 pts.
The selected area was very distorted and did not contribute to the craftsmanship of the project.	The project has evidence that the artist transform the selected area into a triangle, but there were a few angles that were a bit off - White areas were left behind.	The project has evidence that the artist was able transform the selected area into a perfect triangle.
The triangles on each layer are not duplicated in the proper manner. The triangles lack alignment. There are a lot of white spaces.	The project has evidence that the artist struggled to merge and duplicate layers. The layers are rotate, but struggle to be aligned. The project has a few white space.	The project has evidence that the artist was able to merge and duplicate layers. The layers are properly rotate and aligned with no white space.
The project has evidence of Very Little effort.	The project has evidence of Some of effort.	The project has evidence of A Lot of effort and craftsmanship.

3 pts.

The artist created only one project.

10 pts.

The artist created multiple projects. Each example has a unique area of selected elements. The artist combined projects from different images. See going beyond - on the last page of the directions.

The artist applied transparencies and filters to enhance their additional projects.

All the projects were labelled properly as...

Last_First_Per 1/2_Kaleidoscope project 1, 2, 3 etc.
