# How to draw a ribbon

1. Draw a line that over laps itself.

Draw lightly you will be erasing part of this line.

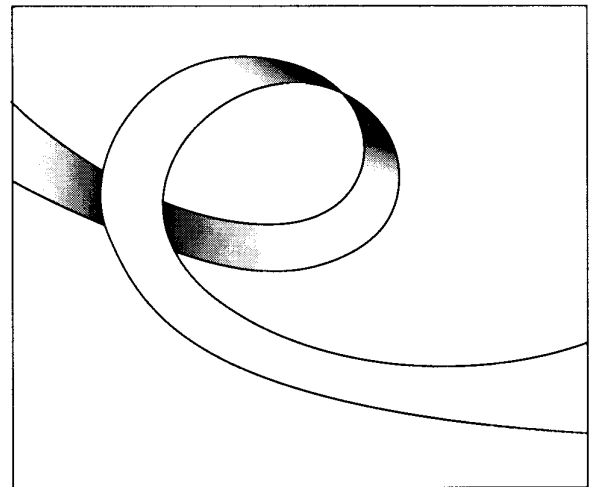

2. Draw a line that mirrors/ follows the first line. Leave a gap/space between the two lines.

Draw lightly you will be erasing part of this line.

3. Erase the lines to create an over / under effect.

4. Use dark value to push areas back. Leave other areas white to allow them to come forward.v
