

How to Draw an Eye

Please return this sheet

Step 1: Draw two concentric circles.

The inside circle has already been drawn to help you determine the size correctly.

Step 2: Draw an almond shape across the circles.

Step 3: Add a tear duct.

Step 4: Add a reflection highlight.

Step 5: Add a line that represents the top of the eye socket.

Step 6: Add a line that represents the thickness of the eyelid. This area is where the eye lashes grow out of.

Step 7: Add a lines that represents the eye lashes. Be aware of the direction and the length of the lines.

Step 8: Darken in the pupil.

Step 9: Add value around the colored part of the eye. Add value in the tear duct. Add value under the line of the eye socket.

Step 10: Draw the other eye.

Name: _____ Date: _____ Per: _____
