

Directions - Add the missing shapes to the robot.  
All the squares are in perspective to create the illusion  
depth.

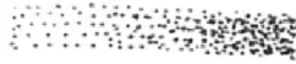

Helpful hint - Use a ruler to draw straight lines.

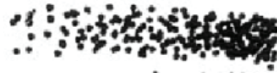

# Stippling

## Cross-Hatching

Directions - Use an ultra fine sharpie marker to create value (light and dark) using stippled dots and cross hatching lines.

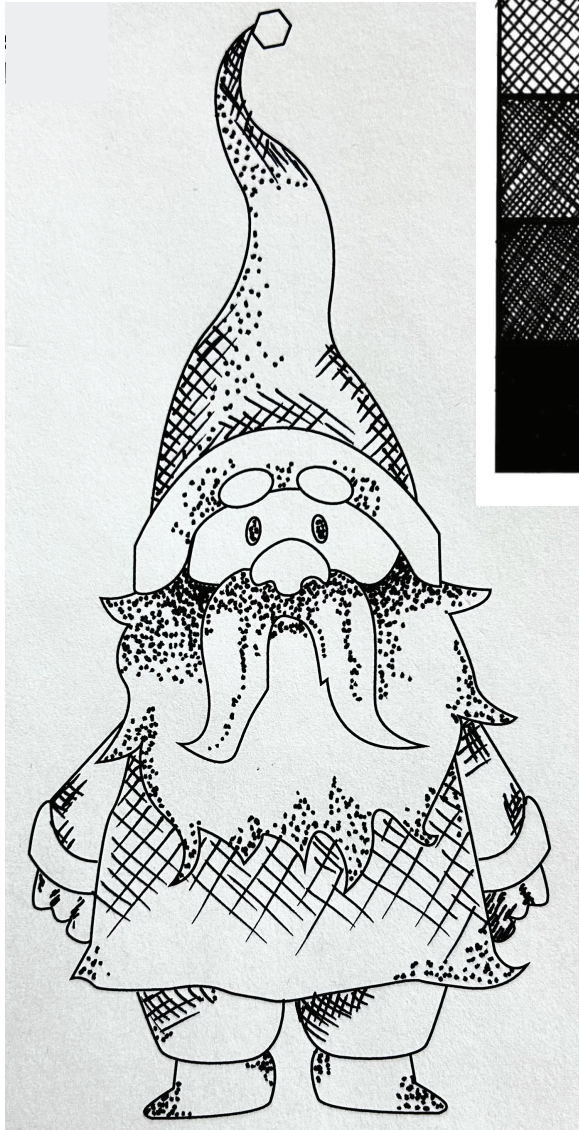

Stippling uses tiny dots to create value.

The closer together the dots, the darker the tone.

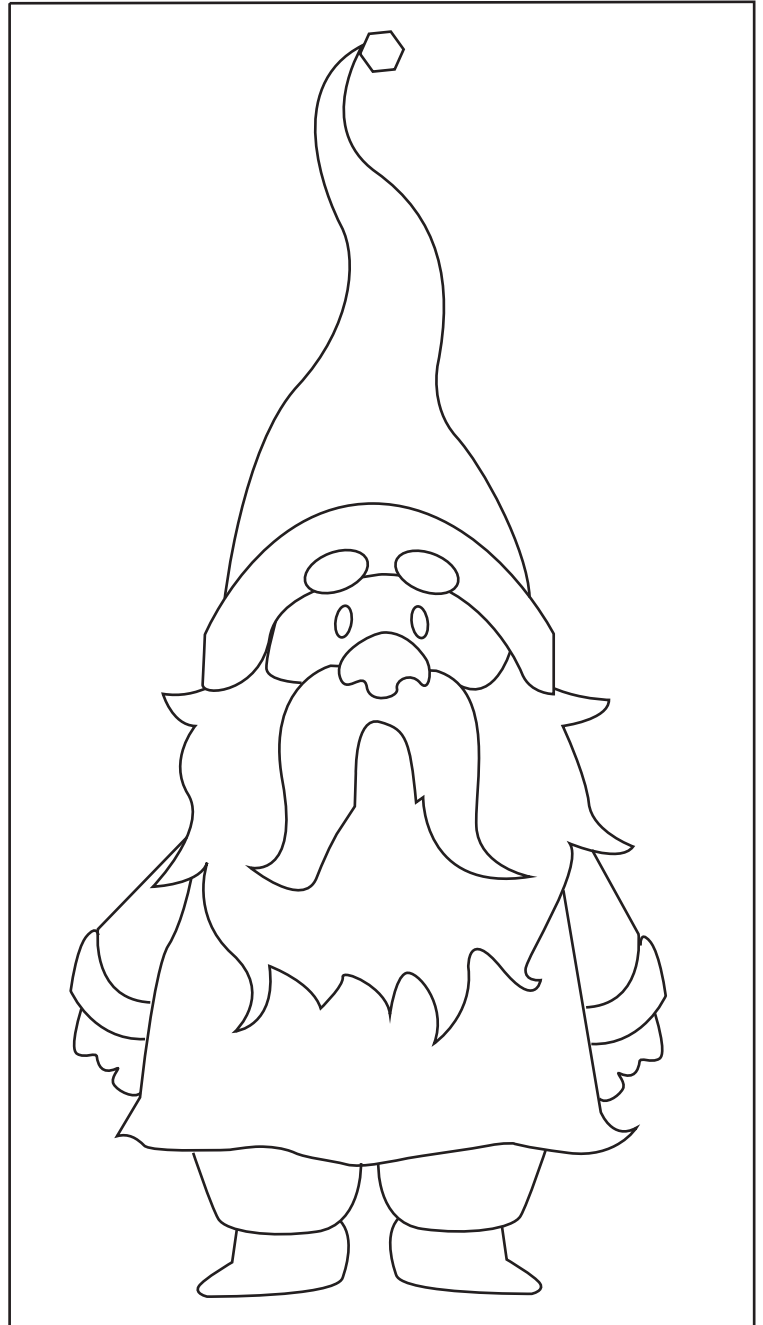

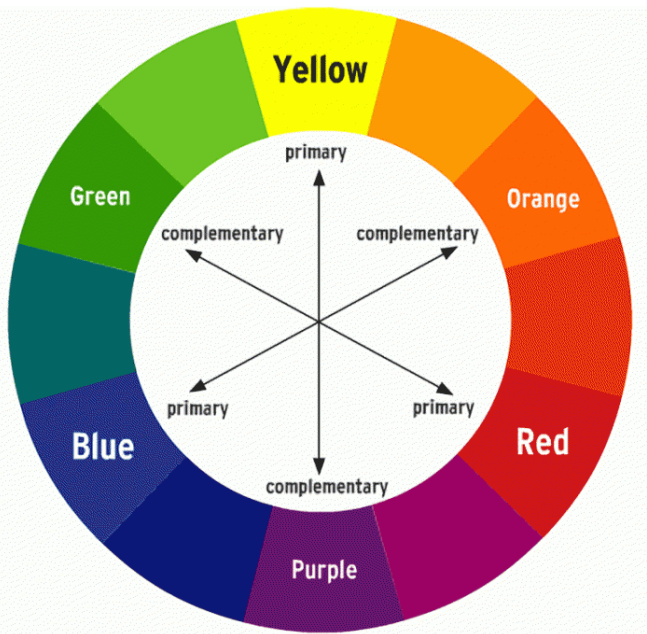

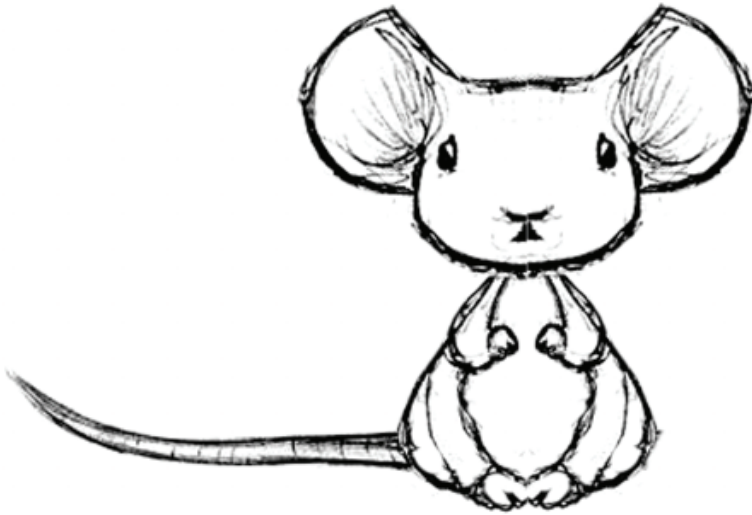

Larger dots create a denser tonal value more quickly but can look coarse.

Directions - Color in the Gnome using complimentary colors.

Complimentary colors are opposite on the color wheel.

Directions - Complete the missing part of the drawing.  
**Symmetrical balance** - The left is a mirror reflection of the right.
