

# Photoshop Animated Gif Rubric

1 pt.

3 pt.

5 pt.

The animation has less than 5 frames.

The animation has less than 7 frames.

The animation has a minimum of 10 grouped frames that all have a different state of the animation.

The elements / content of the animation are sloppy.

The artist is still developing their skills to select elements.

There is evidence that **extra attention** was given to selecting the animation. There are no unwanted pieces around the elements. There is a small feathered edge.

The elements look disconnected and have gaps.

There is animation has a few problems with seamless movement that could have been corrected with a clone stamp, or healing brush.

There is evidence that the artist used the clone stamp, healing brush and spot healing brush to alter the elements to create seamless movement.

The artist demonstrated **NO** effort to create their project.

The artist demonstrated **SOME** effort to create their project.

The artist demonstrated **A LOT** of effort to create the best project that they were able to.

The artist did not capitalize on the best use of their time.

The artist had extra time that could have been used to continue designing animation.

The used all the time allowed to continue developing their skills.  
  
The artist made several successful solutions to this project.
