

Directions - Draw circles over this print to help position where the knuckles, finger joints and major structures are going to be located.

Use connecting lines to help you see the relationships of the shapes in proportion to the shapes around.

Directions - On an 12" x 18" piece of drawing paper, recreate the hand drawing to the best of your ability. Show the circles and connecting lines on your drawing.

This should be a large drawing the fills the 12" x 18" page.
