

# Grading Rubric - Sacred Geometry

1 pt.	5 pts.	10 pts.
<p>There are major errors in the set up.</p> <p>Pieces are missing or incorrect.</p>	<p>There are errors in the set up of the project. Errors maybe in - 1" border, a convincing circle that was drawn via dividing the square, or subdivision of the slices into the correct angle to create a 6, 7, 9, 10 ect. pointed star.</p>	<p>The project provides evidence that the artist was able to set up the project with a 1" border, a convincing circle that was drawn via dividing the square, and subdividing the slices into the correct angle to create a 6, 7, 9, 10 ect. pointed star.</p>
<p>The project is messy.</p> <p>The lines are poorly drawn.</p>	<p>The project has very little line quality with thick and thin lines. All the lines have unintended messy edges. Most of the lines were drawn by hand.</p>	<p>The project provides evidence that the artist was able to include line quality with thick and thin lines. All the lines have very clean edges.</p>
<p>The project was completed quickly with no thought of how the pieces would look.</p>	<p>The project lacks a sense of unity. The project feels incomplete.</p> <p>The artist could have pushed their idea a bit further.</p>	<p>The project provides evidence that the artist was able to create a sense of unity. The project feels complete. Nothing should be added or subtracted.</p>
<p>The project lacks effort and understanding.</p>	<p>The craftsmanship of the project could be improved via adding more design elements to create contrast.</p> <p>There are few shapes to accent the vertices's. The decorations to interfere or muddy the contrast, and the artist could have been more adventurous with the composition.</p>	<p>The project provides evidence that the artist was VERY concerned with the craftsmanship of the project.</p> <p>There are shapes to accent the vertices's, there are decorations to help create contrast, and the artist was very thoughtful with the composition.</p>
