Unique Solutions		
All the elements are copied from the Internet.	There are one or two learning activity examples as well as examples of the artist's unique solutions.	All the required pieces are 100% designed by the artist. There are NO learning activity examples or designs copied from the Internet.
Quality of the drawing		
The elements of the design are not well drawn. The elements do not overlap.	Some the required elements are made up of overlapping shapes and lines. The lines have been left as colored shapes The design shows some of effort to create a convincing over-under pattern.	All the required elements are made up of overlapping shapes and lines. The lines have been turned into a stroke. All the divided bridges have been reconnected with the shape building tool. The design shows a lot of effort to create a convincing over-under pattern.
Alignment - Spacing - Size		
The elements of the design are not placed with intention.	The large medallion is NOT positioned in the center of the design. The corners have NOT been aligned to the rt., lft., top and bottom. The boarder accents are NOT aligned with equal sqace between the corners. All the elements are irregularly sized. The composition is crowded or squished. The overall composition looks messy.	The large medallion is positioned perfectly in the center of the design. The corners have been aligned to the rt., lft., top and bottom. The boarder accents are aligned with equal space between the corners. All the elements are properly sized so nothing is crowded or squished. All the pieces work together to create a unified composition.
Effort		
The project shows evidence that the artist did not apply their best effort.	The artist was satisfied with their first solution and showed little effort to continue developing.	The artist used all the time allowed to continue developing and creating their best design.
