Crane Drawing

Directions

1. On a 11" x 17" piece of paper draw a border that is 1" away from all the sides.
2. Brainstorm a concept for your composition. What story are you going to tell. What environment are your cranes in? What objects/icon can you use to help your viewer understand what is happening in your composition?
3. Use the packet of crane examples for your drawing. Use points to help you determine where to place the shape. Use a ruler to connect your points with a straight line.
4. Your composition must have at least **5** individual cranes in different positions.
5. You must use color to shade in the cranes. Use darker colors to show where the folds are behind. See examples for clarification.

Composition Brainstorming ideas

What type of environment/place do your cranes live in?

These are
just suggestions.
You can
make up your own
ideas, or use one
of these.

Jungle	Kitchen	Lake
Desert	Pool	Paris
Ocean	Movie theater	Candy Land
Space	Pyramids	Medieval Castle

What type of activities do your crane do?

Soccer	Trick or Treating	Playing with friends
Football	Sufing	Weight lifting
Board games	Playing video games	Falling in Love
Sleeping	Baking	Shopping

What will your composition be about?
