

Grading Rubric - Sacred Geometry Digital with Effects

1 pt.	5 pts.	10 pts.
<p>There are major errors in the set up.</p> <p>Pieces are missing or incorrect.</p>	<p>The project provides evidence that the artist struggled to set up the projects by creating circles that were subdivided into a variety of different angle to create star templates to work from. The project has less than 3 unique solutions.</p>	<p>The project provides evidence that the artist was able to set up the projects by creating circles that were subdivided into a variety of different angle to create star templates to work from. The project has 3 unique solutions.</p>
<p>The project is messy.</p> <p>The effects/colors are poorly used.</p>	<p>The project provides evidence that the artist struggled to include effects/color to all three solutions. The effects/color show quick solutions.</p>	<p>The project provides evidence that the artist was able to include effects/color to all three solutions. The effects/color show a lot of investigation into the possibilities.</p>
<p>The project was completed quickly with no thought of how the pieces would look.</p>	<p>The project provides evidence that the artist struggled to create a sense of unity. The project feels complete. Something should be added or subtracted.</p>	<p>The project provides evidence that the artist was able to create a sense of unity. The project feels complete. Nothing should be added or subtracted.</p>
<p>The project lacks effort and understanding.</p>	<p>The project provides evidence that the artist was mildly concerned with the craftsmanship of the project.</p> <p>There are few shapes to accent the vertices's, there are few decorations to help create contrast, and the artist was a little thoughtful with the composition.</p>	<p>The project provides evidence that the artist was VERY concerned with the craftsmanship of the project.</p> <p>There are shapes to accent the vertices's, there are decorations to help create contrast, and the artist was very thoughtful with the composition.</p>
